EDUCATION

RNS Institute Of Technology   Bangalore, India
Bachelor of Engineering in Information Science And Engineering   *Dec. 2021 - Current*

Kendriya Vidyalaya No.1   New Delhi, India
12th Grade (90%)   *April 2018 – June 2020*

Kendriya Vidyalaya No.1   New Delhi, India
10th Grade (88.8%)   *March 2016 – March 2018*

PROJECTS

Poloroid | *Next Js, Tailwind Css, Express Js, Mongo Db*   Nov. 2023 – Jan. 2024
- Developed a social media website allowing users to sign up, log in securely, upload pictures with captions, and manage friend requests.
- Utilized Next.js for server-side rendering and building modern web applications.
- Designed responsive and customizable UI components using Tailwind CSS.
- Implemented user authentication and session management using Node.js and Express.
- Stored user data and posts in MongoDB, a NoSQL database.

Image Drop | *React, Tailwind Css, Express Js, Mongo Db*   Sept. 2023 – Oct. 2023
- Crated a web application enabling users to create accounts, upload, and organize multiple images into folders.
- Utilized React-Vite framework and Tailwind CSS for a fast and responsive user interface.
- Implemented user authentication system for account creation and management.
- Stored uploaded images in MongoDB with folder organization.
- Provided access to images through specific URLs for integration into various projects.
- Integrated dynamic background images based on current weather conditions (see Weather App)

Solids | *Next js, Tailwind Css, Mongo Db*   July 2023 – Aug. 2023
- Implemented a feature-rich e-commerce website using Next.js 13.
- Integrated third-party authentication via Kindle Auth for secure login and registration processes.
- Employed MongoDB for efficient data storage, providing scalability and flexibility.
- Ensured secure and seamless transactions through the Razorpay payment gateway.

Upfront | *Next js, Tailwind Css*   Feb. 2023 – March 2023
- Built a simple news website using Next.js, a React framework to generate server-rendered content and static site generation.
- Fetches data from the NewsAPI to display articles from various sources.

Weather App | *React, Tailwind Css*   Jan. 2023 – Feb. 2023
- Made a React application that displays weather information using data from an external API
- Leveraged the Image Drop project to dynamically change background images, enhancing the overall aesthetic and user experience..

TECHNICAL SKILLS

Languages: C/C++, JavaScript, TypeScript, HTML/CSS
Frameworks: React, Next js, React-Vite, Tailwind Css ,Express js, Node.js
Developer Tools: Git, VS Code, Vercel
